

Quick start guide

Customer Supportdesk

Start here

1 Installation

Reading progress

-1-2-3-4-5

Introduction

Congratulations on your purchase of Customer Supportdesk for Magento 2. You are almost in business! This quick start guide helps you set up Customer Supportdesk. If you need support, look at our more <u>extensive</u> <u>manuals</u>, <u>request e-mail support</u> or let us take care of installing or customising Customer Supportdesk by <u>purchasing development hours</u>.

Installation

Decide how you want to install Customer Supportdesk, there are two options:

- 1 with the Magento 2 Component Manager
- 2 using the command line

Short instructions for both methods are given below.

Magento 2 Component Manager

If you purchased Customer Supportdesk in Magento's Marketplace, install the extension with the Component Manager. The installation process for Customer Supportdesk is the same as for any other extension in the Marketplace.

Command line

Please take a look at our extensive installation manual for instructions on installing

Getting started

The general settings can be found in the menu:

| Configuration | | Q 🌲 🗘 admin 🗸 |
|--------------------------------|---|---------------|
| D Store View: Default Config 🗸 | | Save Config |
| GENERAL | ∀ General | \odot |
| CATALOG | Enable Customer Supportdesk [store view] Yes | - 1 |
| CUSTOMERS | Default settings | |
| SALES | Product Page Visibility (store view) Yes | * |
| DOTMAILER | Cart2Quote Quotation Frontend Page Visibility [store view] Yes | • 2 |
| CUSTOMER SUPPORTDESK | Cart2Quote Quotation Backend Page Visibility [store view] Yes | * |
| General | Default Priority [store view] Low | • 3 |
| rs Emails Is | | |
| SERVICES | v | _ |
| ADVANCED | ~ | 5 |

Stores->Configuration->Customer Supportdesk->General.

- ① Enable Customer Supportdesk
- Enable Product Page Visibility
- 3 Configure the default Priority

You can configure the New Ticket and Message Update email by following the email configuration guide.

2 Create a Ticket

Reading progress

Create a Ticket in the backend

- ① Go to Customers->Tickets
- Click "New Ticket"
- 3 Enter your subject and message
- (4) Click "Submit as Open"
- 5 Click "Ticket #<number> has been created." to view your ticket again

When this process goes well, Customer Supportdesk is correctly installed.

Create a Ticket in the front-end

- 1 In your backend, enable 'Product Page Visibility'
- 2 In your front-end, find the product and click "Ask a question" tab.
- 3 Fill in your first name, last name, email and a message.
- Click "Ask Question".
- 5 Click "View your ticket".
- 6 Review your newly created ticket.
